Batoul Awwad

Biography

After completing her M.Sc. in Surveying Engineering from the Lebanese International University in 2021, Batoul concentrated on developing rural areas through master planning and GIS data analysis. She is an Assistant Sustainability Engineer at EcoConsulting, where she helps in reviewing plans & documentation and developing strategies for green building certifications. She has also contributed to the creation of environmental awareness modules in collaboration with AUB-IFI and UNICEF and assisted in the preparation and translation of environmental training content for INJAZ.

With two years of experience in coordination and administrative roles, Batoul has collaborated with public sector projects, including the Ministry of Finance and OMSAR. Batoul has held various positions, such as overseeing data management and record accuracy at the Ministry of Finance / OMSAR. As a Creative Operations Manager at Studio Madane, she managed logistics and supported content development.

In her free time, Batoul enjoys playing Muay Thai and has a deep passion for writing, particularly on political and sociopolitical topics.
